SKILLS

Languages & Frameworks

Python JavaScript TypeScript Java C/C++ C#
Node.js Next.js React React Native Spring Boot
FastAPI Flask Laravel

Cloud, DB & Tools

Azure AWS Docker Linux Git/GitHub MySQL
PostgreSQL Prisma Redis RabbitMQ ffmpeg
AWS S3 AWS Rekognition Firebase Postman

Hardware & Robotics

Arduino Assembly PCB Design Embedded Systems

LANGUAGES

Portuguese: Native

English: Fluent (C1)

Spanish: Intermediate (B1)

German: Basic (A2)

SUMMARY

Software engineer with experience in fullstack development, DevOps, and research projects. Currently a Mid-level Full Stack Developer (PJ) at BeLogic, building and maintaining multiple client products with TypeScript (React/Next.js, React Native), Java/Spring Boot, Python/FastAPI/Flask, Node.js and Laravel, plus CI/CD pipelines (Jenkins, GitHub Actions) and multi-environment Docker deployments.

EXPERIENCE

Mid-level Full Stack Developer (PJ)

BeLogic

Feb 2026 - Present

Fullstack engineer building and maintaining multiple client products. Frontend with TypeScript (React/Next.js, React Native/Expo). Polyglot backend (Java/Spring Boot, Python/FastAPI/Flask, Node.js, Laravel/PHP). Video streaming (RTSP/HLS, MediaMTX, ffmpeg), AWS (S3, Rekognition), security (OAuth2/JWT/Keycloak) and Prisma ORM. Own DevOps: CI/CD (Jenkins, GitHub Actions), multi-environment Docker and server management. Promoted to Mid-level in Jul/2026.

IT Intern

CELEPAR

Sep 2025 - Jan 2026

Technical Support & Infrastructure specialist. Managed user support, system configuration, and hardware maintenance (OS installation, hardware setup). Contributed to documentation standards and Git version control implementation. Supported infrastructure updates across Windows/Linux environments.

Research Assistant

Technische Hochschule Ingolstadt

Sep 2024 - Aug 2025

Research Developer specializing in autonomous systems and real-time processing. Developed AutoVoice, a voice command system for autonomous vehicles using speech recognition and synthesis. Created IMU Visualizer for real-time inertial sensor data visualization from Arduino. Contributed to Computer Vision projects including hand gesture recognition with ML models.

Software Engineering Intern

BRF S.A.

Feb 2023 - Sep 2024

Platform Engineer & Developer for ServiceNow. Managed and maintained enterprise ServiceNow instance supporting critical business processes. Responsibilities included version control, deployment management, user access control, and platform customization using Python and JavaScript. Integrated external APIs via Postman for system interoperability.

Autonomous Robots Team Manager

PUCPR Robotics Team

Feb 2022 - Jul 2023

Technical Lead & Project Manager for robotics team (5 members). Responsible for project planning, timeline definition, and technical oversight. Delivered multiple projects including PCB design, embedded systems programming (C++/Python), and full robot assembly. Team achieved 3 first-place finishes across different national competitions (RCX, Iron Cup, and Trekking events).

EDUCATION

Computer Engineering

Pontifical Catholic University of Paraná (PUCPR)

2020 - 2026

Computer Science and AI (Exchange)

Technische Hochschule Ingolstadt, Germany

2024 - 2025

PROJECTS

Automotive Voice Assistant (AutoVoice)

Portuguese voice assistant for automotive use, developed for the Google Dev Board (AA1), integrating speech recognition and synthesis.

Computer Vision with MediaPipe

Real-time application that processes webcam feed, recognizes hand gestures, and sends the processed video to a virtual camera.

RaspScreen — Smart 3D Printer Dashboard

Full control dashboard for a Creality Ender 3 V2 3D printer via Raspberry Pi 3B. Features a local 4" TFT SPI display (Python/Pillow, dark mode) and a remote web dashboard (HTML/JS). Powered by Klipper + Moonraker. Remote access via Tailscale.

Pinterest to WhatsApp Stickers

Mobile app (Android/iOS) that converts Pinterest boards into WhatsApp sticker packs. Handles Pinterest OAuth, image processing (crop, resize 512x512px, WebP via Sharp), and automatic sticker pack bundling. React Native frontend with Node.js/Express backend.
